LEGEND

Bearings are UTM Grid, derived from GPS baselines, and are referred to the central meridian of UTM Zone 8 (135° W).

Positioning of station 40 was conducted by satellite observations computed using the Precise Positioning software of the Earth Sciences Sector of Natural Resources Canada.

Coordinates and orthometric elevations are derived from GPS observations holding the PPP derived position of station 40 fixed and using the HTV2.0 geoid model.

All posts placed in the course of this survey are marked with the appropriate lot numbers, R for Road, W for Walkway and the year of the survey.
