

NOTICE

Designation of Areas within the Peel Planning Region for Notification prior to Class 1 mineral exploration programs

As per Order-In-Council 2014-08, Protected Areas, Restricted Use Wilderness Areas and Integrated Management Areas 7 and 10 have been designated as regions where notification is required for Class 1 exploration programs, pursuant to the *Quartz Mining Act* and *the Placer Mining Act*.

This requires anyone carrying out a Class 1 Quartz or Placer mineral exploration program to provide a notification of the work to the Chief, Mining Lands, Mineral Resources through filing of a Class 1 Notification Form prior to commencing work.

The notification requirements are effective immediately.

Class 1 programs that do not occur in these areas shown on the map do not have to submit a notification. Notification forms are required to be submitted to the district Mining Recorders office.

Notification forms are available online at www.emr.gov.yk.ca/mining/mining_land_use.html or from any of the four district Mining Recorders offices.

For more information, please contact:

Mayo Mining Recorders Office:	867-996-2256
Dawson Mining Recorders Office:	867-993-5343
Watson Lake Mining Recorders Office:	867-536-7366
Whitehorse Mining Recorders Office:	867-667-3190
