

CLASS 1 NOTIFICATION

General process

When developing a program it is recommended to contact the affected First Nation(s) to discuss the proposed activities to help mitigate any potential land use conflicts.

NOTES

- Use the [Mining Map Viewer](#) to identify settlement land and class 1 notification areas.
- A Notification is required if your exploration program is categorized as class 1 and located either on settlement land (category A or B) or within a class 1 notification area.
- To determine if your project would be categorized as class 1, review the Class Criteria table in the [Placer](#) and [Quartz](#) Mining regulations.
- Days are calendar days.
- Notification forms are available at www.yukonminingrecorder.ca
