

# NOTICE

## Designation of the Ross River Area for Notification prior to Class 1 mineral exploration programs

The 'Ross River Area' has been designated as a region where notification is required for Class 1 exploration programs, pursuant to the *Quartz Mining Act* and the *Placer Mining Act*.

This requires anyone carrying out a Class 1 Quartz or Placer mineral exploration program to provide a notification of the work to the Chief, Mining Lands, Mineral Resources through filing of a Class 1 Notification Form prior to commencing work.

The notification requirements are effective immediately.

Class 1 programs that do not occur in the Ross River Area do not have to submit a notification. Notification forms are required to be submitted to the district Mining Recorders office.

Notification forms are available online at [www.emr.gov.yk.ca/mining/mining\\_land\\_use.html](http://www.emr.gov.yk.ca/mining/mining_land_use.html) or from any of the four district Mining Recorders offices.

For more information, please contact:

Mayo Mining Recorders Office:	867-996-2256
Dawson Mining Recorders Office:	867-993-5343
Watson Lake Mining Recorders Office:	867-536-7366
Whitehorse Mining Recorders Office:	867-667-3190
